

EX-SENATOR McDONALD will take the stump for Cleveland and Hendricks. He thinks they will be elected.

The colored voters of Cincinnati organized a Cleveland and Hendricks Club with 143 members enrolled.

Or \$200,000,000 acres of public land given away by the Republicans while Blaine was in Congress he voted for every grant.

In regard to the Irish vote, Hon. T. J. Cogan, of Cincinnati, says: "The ward where I live contains over 1,200 Irish voters, and I know of ten of them in the ward who will support Blaine. On the other hand there are a considerable number of the best Republicans of Cincinnati who will vote for Cleveland."

#### Meeting of the Central Committee.

At a meeting of the State Central Committee at Frankfort, July 18th, the following resolution was adopted:

Resolved, That the Democracy of each county in the State, and the legislative districts in the city of Louisville, be and are hereby requested to meet in mass meetings at 2 p. m. on Saturday, August 17th, at the court house at their respective county seats, and select a new central committee of each from the one now in commission.

#### Camp Meetings.

RECOLDS CAMP, August 9, 1884. The sun-rise meeting was led by Rev. Heverlin. A goodly number were present and the power of God was felt. The voice of young converts in the prayer service added greatly to the interest of the meetings.

The 9 o'clock meeting was led by J. M. Lane. Many testified of God's power to save. One thing noticeable was the testimony of children. The hearts of parents are being made to rejoice in the conversion of their children.

The sermon at 10:30 a. m. was preached by Rev. W. G. Bradford, of Shelbyville, Ky. Text, Acts 7: 9. The power of God was felt by the speaker and people. At the close of the sermon the church came forward and bowed with penitents at the altar. One young lady was sweetly converted. About sixty conversion have occurred during the meeting. Many have received the blessing of heart purity.

The 3 p. m. sermon was by Brother R. C. Pollard. Text, 1st Epistle General of Peter 7: 2. Unto you, therefore, which believe he is precious. The doctrine necessary to be believed are man's depravity God's willingness and ability to save. The sermon was of simple arrangement delivered with great freedom and unction, inasmuch that when the preacher ceased the holy hush of God's presence was upon the audience. The sermon was followed by a very powerful exhortation from Brother Tracy. People were invited to the altar and they came. One young man was sweetly converted, and another woman afterwards upon her seat in the audience broke down under the convicting and rose up anew in the power of the living power of the holy spirit. We felt that there was accomplished for the glory of God and the glory of men that could be measured by human means.

The 7 p. m. prayer meeting was one of interest and profit.

At 8 o'clock Bro. Stevens preached after "All Hail the power of Jesus Name" was sung by the large audience. Bishop Wadden led in prayer. Text, 1st John 2: 2. "And whosoever shall say, 'I love him who is an advocate with the Father, Jesus Christ, the righteous.' The sermon presented the high Priesthood and sacrifice of Jesus Christ typified in the old and fully revealed in the new testament. Bishop Wadden followed with a warm exhortation and an altar service of very great power ensued. Four conversions took place. The last person converted was a young man who was very close to the altar, and was converted by faith, but who left the camp ground about midnight shouting in the joy of his newfound life.

#### PARKE'S HILL, Aug. 11, 1884.

The second Sabbath of this encampment opened bright and beautiful. At least twelve hundred persons were present on the grounds Saturday night and at an early hour the crowd began to increase until the trains came and the entire encampment was crowded with people. Between nine and ten thousand persons were on the grounds. At half-past eight o'clock a very impressive and profitable communion service was enjoyed conducted by Morris Evans, D. D. At half-past ten the large auditorium was filled to overflowing to hear the prince of preachers, Dr. West, of Tennessee. He delivered in his usual most happy and impressive manner a sermon on the subject of "The resurrection of the body," from St. John 5th chapter, twenty-eight and ninth verses. He affirmed that neither nature nor reason has any answer to the question, if a man die shall he live again? This fact is revealed to us by God in a full, clear and positive way. He holds to the opinion that the same body shall come forth from the grave. The sermon was a strong and logical presentation of that most important vital question of our religion. Dr. West was very agreeable to the delight of the large crowds who wait upon his ministry.

At 2:30 o'clock Dr. R. C. At, of Cincinnati, preached to at least two thousand people, a sermon of great power from Philippians 4: 13. Dr. Reid came among us a stranger and goes away with a host of admirers.

Dr. Anderson preached at 7:30. Although there has been a vast crowd upon the grounds to-day still the very best order has been one of the most profitable and successful meetings ever held on "Parke's Hill."

#### PARKE'S HILL, Aug. 11, 1884.

On every train to-day the campers began to depart for home. At 11 a. m. Dr. Foynter, of Shelbyville, Ky., preached the closing sermon, which was a deeply impressive. Dr. Evans then closed the services and hute us all good-bye, and all are on our way home.

#### A LITTLE "IRREGULARITY."

##### A Bank Cashier and a Half a Million Dollars Missing.

New York, Aug. 12.—The Wall Street Bank at 12 o'clock today was suspended, and the cashier, J. F. Dickinson, has absconded. It is said his "irregularities" amount to half a million of dollars, and that the officers of the bank are all responsible for any deficit arising from the irregularity of its deposits and will make good all losses.

Mr. Dickinson, a Scotchman, was in Dr. Sturges Brooklyn church. President Evans says he lost the money "baiting" wheat, and says that he was paid for it. He swept away, but the depositors will eventually be paid in full. He thought that 50 per cent. would be paid soon. The bank is quietly giving checks for money due Sunday. The bank was started three years ago by the Grant family. Victor Newcomb is also reported to have been in the bank.

Merchants generally agree in saying that the failure of the Wall Street National Bank was not unexpected since its business nature was not calculated to inspire one with confidence in its ability. It was, they say, a sort of clearing house for stocks. It is alleged the bank carried a large amount of money, and its assets were high as \$500,000. The capital of the institution was \$500,000, most of which is believed to have been lost. It had no circulation.

#### SMALL EARTHQUAKE IN WALL STREET.

Wall street had a small earthquake in its account Monday when the facts became known to the public. The earthquake was felt in the Mills' building, burst. The bank did not open at all during the day. The following notice was issued by the bank:

"Owing to irregularities on the part of the cashier, the bank will remain closed until matters can be investigated."

The announcement was not signed. The fact that the bank having collapsed spread like wildfire. A few minutes after it first became known, crowds of men, clerks, and office boys flocked to Mills' building. One after another read the above notice, and then coming down stairs leading to the office bank, they were in the greatest confusion. Representatives of the press were admitted to the bank. There was such confusion inside among the officers that they were unable to give any definite statement.

"For heaven's sake, what is the trouble?" Is my money gone?" One inquired said: "Don't know what's the trouble, except Dickinson, the cashier, is in the hands of the law to join Eno and Hunsley, in Chicago."

Representatives of the press were not admitted to the bank. There was such confusion inside among the officers that they were unable to give any definite statement. The bank's condition would be made public. Thomas W. Evans, the President, said the National Bank depositors would all be paid in full at the probability was the stockholders would lose everything. No authoritative statement can be obtained as to the exactness of the condition of the cashier.

New York, Aug. 11.—Currency notes, 124 bills, coupon, 1195; four and one-half, 40, 112 bill. The stock market opened with a great freedom and unction, inasmuch that when the preacher ceased the holy hush of God's presence was upon the audience. The sermon was followed by a very powerful exhortation from Brother Tracy. People were invited to the altar and they came. One young man was sweetly converted, and another woman afterwards upon her seat in the audience broke down under the convicting and rose up anew in the power of the living power of the holy spirit. We felt that there was accomplished for the glory of God and the glory of men that could be measured by human means.

#### DODGING THE WHISKY TAX.

##### Distillers Shipping Their Surplus to Europe for Storage.

PITTSBURG, Pa., Aug. 12.—Fritzbarg distillers are getting even with Congress for their refusal to exempt the whiskey in bond by sending their surplus stock to Europe for storage, and thus evading payment of the tax. Already between \$90 and \$600 barrels have been shipped to London, and the distillers are expected to ship a large quantity of the surplus to other foreign ports. The distillers are expected to ship a large quantity of the surplus to other foreign ports. The distillers are expected to ship a large quantity of the surplus to other foreign ports.

"In Bremen it costs us just half as much for storage and one-fifth as much for insurance as in this country," said Mr. J. W. Fry. "We can get our whiskey into the very best of warehouses in Bremen for five cents per barrel, whereas here it is as high as 1 and 2 per cent. There it can be had as low as one-fifth of 1 per cent. They have unlimited storage space, cheap labor, cheap rates, and stocks are so ample that they are considered first-class risks."

#### OKLAHOMA.

##### An Account That Does Not Materially Differ from the First.

WICHITA, Kan., Aug. 12.—A number of Oklahoma boomers from Rock Falls and the Indian Territory, have arrived here. They report the account concerning the Oklahoma boomers from California as highly correct, and in line with the policy. The unanimity towards the Oklahoma boomers was shown by the troops. The Oklahoma Chief, the organ of the colony, was suppressed. No valuable property was destroyed. Oil found, Captain Payne among the rest, are said as promoters and will start for Fort Smith and the Indian Territory. The rest of the colonists were sent into Kansas and told to go home. Oklahoma's feeling exists in this section over the loss of the Government's people's favor during the opening and settlement of Oklahoma.

#### Vagaries of a Toy Pistol.

PONCA, N. Y., Aug. 12.—While a boy named Peter, twelve years old, was playing with a toy pistol, the ball passing through the hand and wrist of the boy, continuing in its course and striking the thumb of another child named Eddie Elenberg, a son of Dr. Elenberg, of Gloversville, indicating a serious if not fatal wound.

#### IN SELF-DEFENSE.

##### A Drunken Man Shows Officiousness Led to Death.

GREENSBORO, O., Aug. 12.—Fred Hochberger fatally shot Goodwin at the house of Samuel McNish, at 10 o'clock last Saturday night. Goodwin had attempted a political meeting and got very drunk. Going home he stopped at McNish's house, roused the family from bed by threatening to search the house, and finally, while riding up the road, was halted by Goodwin and searched. He then went into the house, and McNish says that he and Goodwin came to an advanced and Hochberger caught up a double-barreled shotgun and emptied both barrels into his body. He then came here and gave himself up.

#### STEAMBOAT EXPLOSION.

##### The Manila Glass Blows Up—Two Killed and Two Injured.

MANILA, Ind., Aug. 12.—The steamer Manila Glass, while towing a barge in front of the city at 9:30 Monday morning, exploded, and immediately sank out of sight. The explosion killed two men and injured two. The steamer was carrying a large quantity of glass. The explosion was caused by a gas leak. The steamer was carrying a large quantity of glass. The explosion was caused by a gas leak.

#### THE MARKETS.

##### General.

THE DAILY BULLETIN.  
TUESDAY EVE., AUGUST 12, 1884.

ROSSER & MCCARTHY,  
Publishers and Proprietors.  
TO WHOM ADDRESS ALL COMMUNICATIONS.

CAMPION LION.  
Are about played out.  
For the old man is there  
Without any doubt.

The brick work of the new opera house will begin this week.

The street car line will have been in operation one year to-morrow.

There were thirteen mules present at the camp meeting on Monday.

The river continues to fall and all the boats are arriving behind time.

This week you can buy good home grown watermelons anywhere from five to fifty cents.

It is estimated that there will be over a half million bushels of wheat raised in this county this year.

Mr. S. J. DAUGHTERY has just received a shipment of new style monuments. They are very handsome.

The town clock would be a better looking clock if it would wash its face. Soap is badly needed in that quarter.

MAYVILLE pressed brick are in demand at Lexington and other interior towns. They are considered the best in the market.

Ed. Johnson, charged with murder, and John Leonard, with burglary, escaped from the jail at Manchester, on Saturday, but were recaptured.

It is the opinion of steamboat men that if the river continues to fall three days longer all the large boats will be obliged to discontinue their trips.

A HANDSOME gilt watch sign about six feet in diameter arrived this morning in Mr. James Ballenger. It was made at the sign works at Bellefontaine, Ohio.

Hoots are a little higher at Cincinnati. Common sold for \$4.75 and \$5.30; fair to good light, \$5.35 and \$5.85; fair to good packing, \$5.40 and \$5.80; select butchers, \$5.80 and \$6.15.

The railroad, on Sunday, carried over two thousand six hundred passengers to and from the camp meeting.

MILLIE OWENS, colored, living between Paris and Lexington, is dead at the age of 113 years, having been born in Culpeper County, Va., in 1771. She was buried in a shroud made by her own hands in 1828.

The trial of Edward DeLyle for shooting officer George Holliday, was postponed until to-morrow, as Mr. Holliday was not able to appear in court yesterday.

FEED HECHEBERGER fatally shot Warren Goodwin, at Georgetown, Ohio, on Saturday night at the house of Samuel McXiah. Goodwin was drunk and had taken possession of the premises, and in protecting the family Hecheberger killed him. He surrendered to the authorities.

The Democrats of Brown and Adams County, Ohio, will have a grand barbecue at Brittingham's grove, near Manchester, some time in September. Mason County will take part in the affair and will contribute generously. Distinguished speakers from all parts of the country will be present.

The following sales were made on Monday, County Court day, by Mr. George C. Goggins:

1 cow	\$4 00
1 cow	27 00
1 cow	27 00
1 horse	100 00
1 horse	100 00
1 horse	100 00
1 yearling	100 00
2 small cattle	50 00

The second game of base ball between the Slipeps, of Murphysville, and the Dudes, of this city, was played before a large and enthusiastic audience and resulted in the defeat of the latter after a close and exciting game. The Dudes' regular pitcher, Wheatley, failed to appear, and Atkinson was put in the box with Messrs. behind the bat. The visitors presented Tudor and Crawford as their battery. The home nine were in the lead until the 5th inning, when they went all to pieces, and allowed the visitors to score eight runs, which gave them a good lead. The Dudes again took the lead and were one ahead in the ninth inning. The Slipeps then went to bat and ended the game by making two runs, the score standing six to ten. The fielding of the former was poor, while the latter fielded tolerably well. The rest of the game was the one-headed running catch by Cole in the third inning.

Democratic Convention.

MAYSVILLE NO. 7.  
Pursuant to a call of the Democratic Executive Committee E. M. Groves, member of the committee for Mayskill precinct No. 7, called the convention to order promptly at three o'clock. He stated the object of the meeting and then declared nominations for temporary chairman. Mr. Samuel Raymond was nominated and elected temporary chairman. Mr. J. D. Riley was, on motion, elected secretary. It was then moved and seconded that the temporary organization be made permanent. Carried.

A motion was made, seconded and carried that the chair appoint the delegates to attend the county convention, to be held at Mayskill, Saturday, August 10th, to select delegates to the Congressional Convention. The chair appointed the following delegates: John C. Jefferson, William Mitchell, William Hickey, Jack Archibald, Wm. P. Clark, Thos. Killgore, Duke Walton, J. D. Riley, E. M. Groves and John Collypy. The delegates were then, on motion, unanimously instructed to cast the five votes of Mayskill for the Hon. J. D. Kehoe and to vote as a unit on all questions coming before the convention.

On motion the convention adjourned.  
SAMUEL RAYMOND, Chairman.  
J. D. RILEY, Secretary.

Riddell Elected.

The following communication from Mr. Lewis Apperson, of Mt. Sterling, was received this morning, from which it is evident that Riddell is elected by a sufficient majority.

MT. STERLING, KY., August 11, 1884.  
MR. FERRIS, KY., August 11, 1884.  
Dear Sir: I am writing you a statement of the information I have as to the majority of the vote in the election for the office of Sheriff. I have ascertained that the following are the votes: For Riddell—100; for Lewis—100; for Apperson—100; for Smith—100; for Jones—100; for Brown—100; for White—100; for Black—100; for Green—100; for Gray—100; for Gold—100; for Silver—100; for Copper—100; for Iron—100; for Lead—100; for Zinc—100; for Tin—100; for Nickel—100; for Cobalt—100; for Nickel—100; for Manganese—100; for Magnesium—100; for Potassium—100; for Sodium—100; for Calcium—100; for Barium—100; for Strontium—100; for Bismuth—100; for Antimony—100; for Arsenic—100; for Selenium—100; for Tellurium—100; for Iodine—100; for Bromine—100; for Chlorine—100; for Fluorine—100; for Oxygen—100; for Hydrogen—100; for Nitrogen—100; for Carbon—100; for Silicon—100; for Phosphorus—100; for Sulfur—100; for Boron—100; for Beryllium—100; for Magnesium—100; for Calcium—100; for Strontium—100; for Barium—100; for Potassium—100; for Sodium—100; for Lithium—100; for Rubidium—100; for Cesium—100; for Francium—100; for Actinium—100; for Thorium—100; for Radium—100; for Polonium—100; for Astatine—100; for Tellurium—100; for Iodine—100; for Bromine—100; for Chlorine—100; for Fluorine—100; for Oxygen—100; for Hydrogen—100; for Nitrogen—100; for Carbon—100; for Silicon—100; for Phosphorus—100; for Sulfur—100; for Boron—100; for Beryllium—100; for Magnesium—100; for Calcium—100; for Strontium—100; for Barium—100; for Potassium—100; for Sodium—100; for Lithium—100; for Rubidium—100; for Cesium—100; for Francium—100; for Actinium—100; for Thorium—100; for Radium—100; for Polonium—100; for Astatine—100; for Tellurium—100; for Iodine—100; for Bromine—100; for Chlorine—100; for Fluorine—100; for Oxygen—100; for Hydrogen—100; for Nitrogen—100; for Carbon—100; for Silicon—100; for Phosphorus—100; for Sulfur—100; for Boron—100; for Beryllium—100; for Magnesium—100; for Calcium—100; for Strontium—100; for Barium—100; for Potassium—100; for Sodium—100; for Lithium—100; for Rubidium—100; for Cesium—100; for Francium—100; for Actinium—100; for Thorium—100; for Radium—100; for Polonium—100; for Astatine—100; for Tellurium—100; for Iodine—100; for Bromine—100; for Chlorine—100; for Fluorine—100; for Oxygen—100; for Hydrogen—100; for Nitrogen—100; for Carbon—100; for Silicon—100; for Phosphorus—100; for Sulfur—100; for Boron—100; for Beryllium—100; for Magnesium—100; for Calcium—100; for Strontium—100; for Barium—100; for Potassium—100; for Sodium—100; for Lithium—100; for Rubidium—100; for Cesium—100; for Francium—100; for Actinium—100; for Thorium—100; for Radium—100; for Polonium—100; for Astatine—100; for Tellurium—100; for Iodine—100; for Bromine—100; for Chlorine—100; for Fluorine—100; for Oxygen—100; for Hydrogen—100; for Nitrogen—100; for Carbon—100; for Silicon—100; for Phosphorus—100; for Sulfur—100; for Boron—100; for Beryllium—100; for Magnesium—100; for Calcium—100; for Strontium—100; for Barium—100; for Potassium—100; for Sodium—100; for Lithium—100; for Rubidium—100; for Cesium—100; for Francium—100; for Actinium—100; for Thorium—100; for Radium—100; for Polonium—100; for Astatine—100; for Tellurium—100; for Iodine—100; for Bromine—100;
